

INCLUSIVE LEARNING
TECHNOLOGIES
CONFERENCE 2012

22nd - 25th May 2012
Jupiters Gold Coast Convention Centre
Gold Coast QLD Australia

More feedback about **Ian Bean**
from the Inclusive Learning Technologies Conference in 2010!

Please please please, don't ever stop running the Spectronics Conference! It is the only opportunity to catch up on all this technology!

Ian Bean was funny. He was real. And he made me 'recommitt' my faith in technology. And I just realised that I spelt recommitt wrongly..!

Once again a well informed conference with fantastic international guest speakers. Ian Bean is an absolute inspiration. I have taken away many ideas to use in profession but also my everyday life.

AWESOME!! So well organised. Presenters were fantastic.

I AM A TRAGIC BEANIE BABE!! Very relevant to my students - severe, multiply disabled.

Got so many ideas I can't wait to get back to school! 😊 Thank you!

Really enjoyed Ian Bean - not just his presentation style but the fact that he provided ideas and motivation for me as a teacher.

Ian Bean was excellent - so passionate & pragmatic & inspirational.

Ian Bean Can we keep him
